MEDICAL.

O THE UNFORTUNATE.

EW REMEDIES! NEW REMEDIES!

Dr. Gibbon's Dispensary,

623 KEARNEY STREET, COR. COMMERCIAL, San Francisco. Established in 1854 for the treatment of Seminal and Sexual Diseases, such as Gonorrhœa, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness Impotency, etc. Also Diseases of years standing and Ulcerated Legs successfully treated.

R. GIBBON has the pleasure of announcing that he has returned from visiting the principal Hospitals of Europe, and has resumed practice at his Infirmary, 623 Kearney street, corner of Commercial, San Francisco, where his old patients and those visiting his services may find him.

Dr. Gibbon has spared neither time nor money in finding out new remedies and has returned to San Francisco with facilities for the alleviation of human suffering.

Horrible Diseases.

How many thousands of persons, both male and female, are there who are suffering on a miserable existence from the effects of secret indulgence, or in vicious abroad into the system! Look at their pale, emaciated and disfigured faces! Behold their broken-down constitutions disqualifying them for the happiness of marriage or the enjoyment of the social life! Consider this horrible situation thousands suffer until death ends the misery. Let parents, guardians and friends speak to those who are suffering with a loathsome, life-destroying maladies see the Infirmary and be cured and cured before it be too late. and then consult DR. GIBBON, a physician who has made private diseases his especial study for years, who is certain to cure the most inveterate case, without mercury or any injurious drugs. It is to those who are afflicted or who have friends interested in the welfare of the unfortunate victim of the many pretended doctors who infest cities, publishing their skill in curing all diseases, imposing upon the public by using names of eminent physicians from Europe and other places. Be therefore careful and make enquiry, or you may fall into the hands of these charlatans.

Seminal Weakness.

Spermatorrhœa, Impotency, the consequence of self-abuse, or solitary vice, or depraved habits of youth, indulged by the youth of both sexes to an almost universal extent, producing the following train of symptoms, if not entirely destroying the reproductive system: Nervousness, Debility, Trembling of the limbs, Dizziness, Dimness of sight, Loss of memory, Confusion of ideas, Depression of spirits, Evil forebodings, Aversion to society, Self-distrust, Love of solitude, Timidity, Blushing, Wakefulness, Pimples on the face, Blotches, Eruptions, Pain in the head, Ringing in the ears, Universal lassitude of the muscular system, Hot hands, Flushing of the body, Dreams on waking and during sleep, Nervous trembling, Wretchedness, Mental incapacity, Confusion of ideas, Weakness of the limbs, Indigestion, Constipation, Dullness of the intellect, loss of confidence, Palpitation of the heart, Blushing, Bashfulness, Nervous apprehensions, Trembling, Dryness of the skin, Eruptions of the face, Pimples, Blotches on the face, Disagreeable breath, Pain in the back, Heavy eyes, Lassitude of the whole body, Hysterical affections, Sexual excitement, Prematureness in the decline of manhood, Sterility, Dyspepsia, Nervous irritability, Derangement of the digestive functions, General debility, Symptoms of consumption, etc.

Married Men,

or those who contemplate marriage, who are suffering under any of these fearful maladies, should not let the sacred responsibility resting upon them decline for want of immediate relief.

DR. GIBBON is responsible, and will give to each patient a written instrument, binding himself to a perfect and permanent cure, or makes no charge.

Caution to the Unfortunate.

Beware of the San Francisco quacks and pretenders who, with bogus sworn-to certificates, flaunt their unsightly faces and their unsightly persons in the streets, and who may be found in the daily papers, and who have imposed upon hundreds of persons in San Francisco and other portions of the country, and have become too lazy to work for an honest living. Some are females, who, under the garb of midwives, carry on their nefarious practices, and ruin the health of many females, rendering them life-long sufferers

The Daily Oregonian.

TUESDAY MORNING JUNE 22 1875

THE CITY ELECTION

The city election has resulted in substantial gains for the Peoples movement Although the Mayor is lost, the rest of the ticket is elected by handsome majorities At the last general city election, the People's candidate for Mayor was elected by 40 majority The Republicans now carry that office by a majority of 6 This is a loss of 46 votes on the Mayor But at that election the ring candidate for Police Judge, was elected by 118 majority Yesterday, there being no Police Judge to elect, the contest in that respect was for Police Commissioner, and the People's candidate succeeded by 81 majority—a gain of 199

At that election the ring elected their candidate for Treasurer by 179 majority yesterday the Peoples candidate was elected by 183 majority—a gain of 362

At the last election the People's candidate for Assessor had 64 majority, yesterday the People's candidate was elected by 147—a gain of 83

At that election the ring elected two out of the three Councilmen Yesterday the People elected two and the ring but one

As to general results, at that election the ring elected Police Judge Treasurer and two Councilmen, and the People the Mayor Assessor and one Councilman At this election the ring get nothing but the Mayor and one Councilman, while the People's party carry the Police Commissioner, Treasurer, Assessor, and two Councilmen So that viewed either from the standpoint of the actual count of votes, or from that of the number and importance of the offices, the People's movement has made very decided gains

The People have now two-thirds of the Council, so they have not only a complete check on any jobbery the ring may wish to put through but also sufficient strength to pass any necessary ordinance over the veto of the Mayor Dr Chapman will have the sublime satisfaction of presiding over the deliberations of a body of men over whom or with whom, he has no sort of power by law He will have to run the city in the interest of the people, whether he likes it or not

This election also secures to the People the City Attorney, Auditor, Surveyor and Superintendent of Streets In fact, for all practical purposes, it is a complete victory for the People's ticket

The defeat of Mayor Failing is attributable to causes that had no connection with political questions His course in connection with the relief of the sufferers by the fire of August, 1872, though clearly right, was used with great effect by the communists who thought their losses ought to have been made up to them and the demagogues who have no scruples against using anything, however unjust, to excite passions and prejudices of the ignorant It seems a disgrace to free institutions that such a thing can influence an election, but it is unquestionably true that in the hands of such blatant demagogues and small politicians as J N Dolph, John A Carr, and that ilk generally even that absurd charge was made to tell in the result

Then, too, Mr Failing had the active opposition of a large portion of the whisky sellers of the city Some time ago an ordinance was passed by the Council raising the liquor license to $100 Afterwards an ordinance was passed reducing it to $50 This latter was vetoed by Mayor Failing This, of course, lost him many votes Considering the combined attack upon him, the wonder is not that he was beaten but that he was beaten no worse

PLENTY OF ROOM

Immigrants continue to arrive by every steamer, and a considerable number come overland from California The accessions to the population of this State and Washington Territory within the six months last past, have reached several thousands When they first began to arrive, it was suggested in some quarters that there might be difficulty in then finding situations and employment Complaints were then heard that the people already in the country could find nothing to do, and it was said that those who came must either go away again or crowd others out of the State But after some thousands have come there is apparently more room than there was at first

These immigrants are for the most part farmers, and such is the productiveness of our soil and the mildness of our climate that the new-settler with a little energy and pluck, can make a start for independent farming easier and quicker perhaps, than in any other known country It has already been demonstrated that Oregon can take care of her immigrants or rather Oregon's immigrants, can take care of themselves, as fast and in as great numbers as they may come All that is needed, is that the immigrant be assisted in finding land which can be obtained on suitable terms After that, with such temporary assistance in the way of neighborly kindness as the old settlers of Oregon are never slow to offer the immigrant can make his way without difficulty

But is there plenty of land to be had? Yes Plenty for all the immigrants that can come Plenty not only for thousands but for hundreds of thousands All through the foothills of the Cascade mountains, there is good land in abundance All through the foothills of the Coast mountains there is good land any quantity of it All through Eastern Oregon and Eastern Washington there are lands that will never fail to return a bountiful harvest, that may be had for the taking The Walla Walla valley, the Palouse valley, the table lands of a great tract of country in Northeastern Oregon and Eastern Washington, all invite the immigrant Ten thousand farms as good as the best in the Upper Mississippi valley are waiting for settlement in Walla Walla county and in the Palouse country

Whether the immigrant seeks timbered lands or prairie, he can be accommodated Eastern Oregon and Washington have prairie lands at government price while in the western part of both the land is timbered and the immigrant can take his choice

COL JOSEPH L MEEK

In the death of Col Joseph L Meek, who departed this life Sunday morning last at his residence near Hillsboro, Washington county, one of the landmarks of Oregon's pioneer days disappears He came to Western Oregon in 1840 from the Rocky Mountains where he had spent the previous fifteen years as a trapper and hunter In 1847 he was chosen to represent to the government at Washington the condition and wants of the infant settlements in this country, and made the trip across the continent in the winter of 1847 8 If his performances at the national capitol are narrated correctly in Mrs Victor's River of the West, of which he was the hero, he was such a representative as no other community ever had Upon the organization of the Territorial government by act of congress Meek was appointed U S Marshal He had been an influential man in the provisional government, and he was prominent in the early Territorial days But in later years he has been known only as a private citizen

The only thing that could have made us happier would have been to get everything instead of letting the ring get away with even the empty honor of a majority which with the status of the common council, is completely without power And it does seem a little greedy, we confess to want to take even that crumb of comfort away from the ring

Wonder if the Holladay ring will never learn that the people of this city have had enough of them We should think such a decisive condemnation as they received yesterday in all the contests that were not complicated with other matters ought to be sufficient to convince them they are not wanted by the people

When we said the Peoples ticket would have a majority greater than the whole number of votes the ring ticket would receive we had especial reference to the First Ward—of course. The result shows we were correct. Captain J R Wiley the Peoples candidate has a majority which exceeds by just 101 votes all the votes received by the ring candidate

Holladay has made his great fight for the control of the city government and has lost Wonder if he has made arrangements to supply from other sources that $30 000 he counted on getting from the city to use in his senatorial campaign?

Dr Chapman may be a very good man, but the people took care to cut off his veto power yesterday by electing opposition councilmen

The election of the ring Mayor yesterday is one of the clearest cases of placing "a barren scepter in a gripless hand"

The vote yesterday was only 1,596, against 2,190 at the last general election for city officers—a falling off of 594

A decision of some interest to savings banks and depositors has just been made in Brooklyn The wife of a man who had $4 000 on deposit in the Williamsburg Savings Bank took his bank book from a chest by means of false keys filled out a draft for nearly $3 000 and went to the bank and drew the money The husband knew nothing of the matter until he went to the bank to have the interest written up, when he demanded that the money drawn by his wife should be placed to his credit This was refused the draft and the entry being pointed to as proof that the money had been drawn and the bank also refused to return the whole $4 000 The bank was sued and the defence was interposed that by the by laws the entry of the fact of payment upon the books was sufficient proof of the good faith of the transaction The plaintiff cited another by law which requires the bank to use its best endeavors to prevent fraud and showed that the signature attached to the draft was not even a good imitation of the depositor's signature The case was tried before the supreme court by a jury who returned a verdict giving the plaintiff the full amount claimed Those bank officers will probably be a little more careful hereafter

THE PLUME OF AN ANCIENT CITY OF KENTUCKY —Green Boits is the owner of a farm at Pond Oak on State creek, a noted section of Bath county, and this spring in plowing up about sixty acres of level land he discovered the ruins of a city—a city of regular streets curbed with stone and evincing a higher order of architectural knowledge and a greater civilization than any other prehistoric remains yet found in this country Many years ago a faint trace of a similar city was noticed in Montgomery county near Mount Sterling but the owners of the land having little taste for bird ward researches almost or entirely obliterated the evidences to make room for corn growing This being a fresh discovery we have no doubt it will be visited by Professor Shaler and the archeologists and historians of the country at large The land adjoins a large tract belonging to General William Preston Lexington —*Frankfort Yeoman*

REV. E. P. HAMMOND IN PORTLAND.

Yesterday morning's prayer meeting was well attended but the proceedings were of a rather desultory character Mr Hammond read from the Bible, and also extracts from Dr Finney's book when the meeting was thrown open for all A good many availed themselves of the privilege by giving in their test mony and also bearing witness to the extent of the work now going on A large number of requests for prayer were handed in I leven were the earnest and fearful requests of fathers and mothers for their erring sons Six from brothers and sisters Three from Sunday school teachers requesting Christians to remember their classes in their prayers Three for the conversion of a wife or husband One was a child asking prayers for its mother Seven were of a miscellaneous character but all were earnest in their desires that their friends and companions might receive the blessings of the holy spirit and be brought into the true fold One was for the conversion of two women living upon Second street who are desirous of changing their present mode of life and are inquiring the way of salvation After the close of the services four Christian women started out to visit the houses of death found on Second street In conversing with one of them last evening, she said that at some places they were refused admittance, at others they were received kindly and were listened to with eagerness and attention At one house in particular they were received in the best of spirits, and found the inmates anxious and alarmed about their present condition and very desirous of being shown some way by which they might escape from their present mode of life The attendance at the Rink last evening was quite large but very late in getting in Some time was spent in singing This part of the exercises is improving each night. A few moments were spent in giving praise for something in connection with these meetings Mr Hammond then came to the front and said he expected that to morrow or Wednesday there would be at least forty ministers from the country present and to night he should not preach a regular sermon but would give them a good old fashioned revival talk He then read the 31st verse of the 16th chapter of Acts And they said believe on the Lord Jesus Christ and thou shalt be saved' He proceeded to tell the story of the imprisonment of Paul and Silas the cause of it, and their being beaten with stripes of the earthquake that shook the vicinity and opened the prison doors the final culmination which resulted in the conversion of the jailer Gave his compliments in pushing to the full extent creed though he hoped had studied their catechisms well and could give his hearty assent to it but that of itself would not do. They must go further and have saving faith be enabled to get down on your knees and cry out what shall I do to be saved' Devils in hell believe, they know more about Christ and hell than you do They saw him crucified and know the agonies he suffered and they know the fearful punishment that disobedience entails Mr Hammond spoke about thirty five minutes and then called for those who had found their Savior or wished to find him to rise to their feet A large number rose up During the inquiry meeting great interest was manifested and many were found anxiously seeking after the truth There will be meeting this morning at 8 30 at the Presbyterian church, and at the rink as usual this evening

THE CITY ELECTION

The municipal election which was held yesterday in this city passed off very quietly and was the most orderly conducted contest of the kind which has taken place in Portland for years. Not an intoxicated person was to be seen about the polls or on the streets during the entire day. Every saloon in the city was closed from 6 o clock A M until 6 o clock P M and no liquor of any kind was sold or drunk The friends of the respective candidates entered into the contest with spirit each actuated by a determination to win if possible but notwithstanding the efforts put forth by men of opposite political views the best of feeling prevailed and there was an absence of the wrangling exhibition of bad temper and the brawls which so often disgrace the polls The following figures will indicate the result of the contest

CONGREGATIONAL ASSOCIATION OF OREGON.

CLOSING SESSION

In the afternoon Rev I S Knight read an essay which had been sent by Rev C A Huntington of Neah Bay, W T, on children and the church This subject was discussed very freely by the members several of the ladies taking part Mr Bangs had many difficulties on the relation of baptized children to the church Some thought the family ought to be their church when young, others that they should be called wards of the church children of the church belonging to the church by promise, while one brother thought we troubled ourselves unnecessarily in regard to the subject by destroying its simplicity All, however agreed that children might become Christians when very young

Rev J H D Henderson having requested a letter of dismission and recommendation from the Association it was granted

The following resolutions were offered by Dr Atkinson which were adopted

WHEREAS The national government aims to civilize the Indians by the school and the church by the farm and the shop by social life and some of the appliances of law upon their agencies

Resolved, That according to our observation and experience these efforts in the case of various Christian denominations, promise a fair degree of success

Resolved That in order to assure the welfare of the Indians under any change of policy in our judgment his full rights as a man under the law on their respective reservations including the title to his home or his farm or his timber land ought to be granted him at the earliest practicable moment

The following resolutions were also adopted

Resolved That the thanks of this association be tendered to the Oregon and California Railroad Company the Oregon Central Railroad Company the North Pacific Railroad Company and the Oregon Steam Navigation Company for favors in reduction of fare on their route

That the thanks of this association be tendered to the citizens of Salem for their courtesies and abundant hospitality during these sessions

Portland was selected as the place of the next annual meeting it being the quarter centennial of the church at that place and Rev J D Eaton was chosen a member of the business committee for the next three years

A resolution was also adopted approving Christian efforts for prison reform and encouraging those engaged in them

A request was made of Rev T Condon for a copy of his essay on the relations between the churches and scientific inquiry, for publication in the DAILY OREGONIAN and it was voted that the rest of the minutes with the essays be printed in pamphlet form —Rev I S Knight being appointed a committee for that purpose with the thanks for the past work in that direction

After this the association and its friends adjourned to the house of Rev I S Knight for a social reunion where they were also bountifully supplied with strawberries and cream and cake by the ladies of the church The buzz and hum of voices which might have been heard, showed that the people were not afraid of each other

In the evening a sermon was preached by Rev J T Ellis of Forest Grove on the connection between prayer and revivals with special reference to the coming of Mr Hammond

After this motion a request was made of the American Home Missionary Society to appoint Rev G H Atkinson D D as superintendent of missions for Oregon and Washington and the following persons were elected as officers of the Oregon Home Missionary Society G Shindler President Rev T Condon Vice President, A Hurgren Treasurer, those officers in connection with the superintendent, constituting the executive committee

On the Sabbath Rev G H Atkinson D D preached the communion sermon and was assisted at the communion table by Rev J T Ellis Other ministers preached in different churches in the city At two o clock the Sabbath school listened to short addresses by Messrs Atkinson Walker Condon and Butler and in the evening Revs Messrs Harrison and Butcher spoke on the subject of revivals

The sessions have been characterized by an excellent degree of harmony Christian spirit and business dispatch which were due in a great measure to the rulings of the moderator, the work of the business committee and of Rev P S Knight, the hospitality of the Salem people and the Christian faith and works of all

About forty members have been in attendance

After the entertainment you will want something in the way of lunch Call at Fabre & Barnes'

The municipal election has somewhat overshadowed business affairs to-day, and but few transactions worthy of note have occurred. In fact, a walk along the wharves and among the wholesale houses shows a very general interest in the choice of city officers.

Financial matters show as little animation as other lines of business and with a fair supply of funds available as loans, transactions are slow and none but heavy loans have been negotiintated in this market the present season. Terms and rates are steady with no marked tendency.

An Eastern exchange says that two serious mistakes have been made by the German Government with relation to its coinage. The new gold coins were put out prematurely, and as fast as they were issued they were sent out of the country, or melted down. Since the trouble was discovered the coins have been held back. A similar mistake has been made with silver. Instead of coining as rapidly as possible, accumulating a large amount, and then calling in the old silver currency, the coinage has gone on very slowly, and the pieces have been given out as fast as they were ready. The new coins have a legal value of one tenth less than the old, and the brokers buy up the old with the new, and melt the former. As a natural consequence, the circulation of notes has increased in the last few months.

We notice in our San Francisco exchanges that the treasury department has contracted with certain mining companies for a large amount of silver bullion from Pacific coast mines, to be coined for the purpose of substituting the fractional currency of the country. The preparations being made indicate that when the time provided by law for the resumption of specie payments by the government, arrives, the measure will be carried out, if possible. The authorities appear to be working in that direction in good faith.

Locally speaking, trade is always dull on Monday, and other causes render the city business remarkably quiet to-day. Produce is coming forward in very small volume, and in some lines the market is nearly bare, with a hardening tendency in prices. Grain shows no fluctuations, and is in very light receipt. Provisions are weak, but quotations are unchanged. Dairy products appear to be rather scarcer and eggs are quotable at 18 cents per dozen. Other domestic produce shows no important activity or change in rates.

Miscellaneous.

Within a period of four days in the first week of June the shrinkage in the value of wheat, corn, oats and barley stored in Chicago, on speculation, aggregated $702,380. A corresponding decline also took place at Milwaukee and the interior grain centers. None but speculators were bitten.

The domestic exports from New York since the first of January aggregate $95,300,000, against $112,700,000 for the corresponding period of last year. The *Financial Chronicle* thinks this a fair average for the country, but such is not the case. New York has lost considerably more than any of the great Atlantic ports.

The latest crop reports from the West are of a very cheering character. A large acreage of corn has been planted and stands well. So, too, of small grains. Notwithstanding the backward season, there never were fairer prospects for a large harvest the coming autumn. In Southern Kansas wheat and rye are in full head and blossom, and are gilding for the early harvest. The prospects of good fruit crops are also excellent, and altogether the advices show an agricultural prosperity and promising condition, the subjects of hearty congratulation.

All the crop accounts from the South are decidedly encouraging, and the present outlook is very favorable for abundant yields of all the great staples in that section. Considerably more grain has been sown than in past years, and this doing well. The superior condition of labor this year is also noticed in nearly all the reports from the South. In some localities it is declared to be fifty per cent. more efficient than last year, spite of the fact that wages rule considerably lower. The year promises to be one of great prosperity to the South, even if prices rule somewhat lower than heretofore.

The Toledo *Commercial*, from a personal observation in some of the best wheat growing portions of Northwestern Ohio, deems it wrong to say that the wheat promise for that section of the State is for but half a crop. So far as the observation extended, and from the observations of others, it is safe to say that the prospect at the close of the month of May is fully fifty per cent. better than one year ago. Upon careful estimates it believes that with no calamity from this out, in the section mentioned, a full three-quarters crop can be relied upon.

Shipping Intelligence.

The steamship Ajax, from San Francisco, will be due at this port to-morrow night.

The bark Garibaldi, 67 days from Hongkong, arrived in port this morning and moored at Pacific dock. She has a large number of Chinese passengers and a fair cargo of merchandise.

The San Francisco *Bulletin*, of the 16th, says "We have upwards of 65,000 tons of tonnage in port, of which 47,000 is discharged and ready for business. There is also a large quantity on the way and ordered. The demand is quite inactive, but must soon set in, as the wheat crop will begin to arrive in quantity next month. The nominal rates for wheat vessels to England are 45@50s, but ship owners are generally holding out for 60s."

The schooner Alice Hoake, which made one or two trips on the route between San Francisco and Portland, over a year ago, was recently lost at the island of Saghalien. Her cargo consisted of two steamers built at Stockton for the Russian government, and intended for inland sea service in Siberia. These steamers were valued at $50,000.
